

HSE POLICY

We at Goradia Special Steel Ltd. Are committed to prevent environmental pollution, injury and ill health through:

- ❖ Use of latest pollution control / prevention systems and optimum Utilization of available resources.
- ❖ Implementation of appropriate systems for preventions of adverse impact on occupational health and safety of all persons working under control of GSSL.

To meet this commitment GSSL shall

- Work towards energy conservation and zero accident target.
- Comply with all applicable legal and other requirements including environmental pollution acts, safety rules and regulation.
- Involve, educate and train GSSL employees (Including contractors) in environment, occupational health and safety related issues.
- Encourage suppliers and contractors to meet HSE Management System requirements.
- Review probable adverse risk to health, safety and environment and initiate controls to mitigate the risk.
- Monitor HSE performance and set targets for continual improvements of organization HSE performance.
